<b>Office Action Summary</b>	<b>Application No.</b> 10/821,129	<b>Applicant(s)</b> PALOHEIMO ET AL. 	
	<b>Examiner</b> Robert E Pezzuto	<b>Art Unit</b> 3671	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

Claim 4 is objected to because of the following informalities: In claim 4, line 1, it appears that "any one of claims" should be deleted and —claim—be inserted. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, line 1, the phrase "or the like" renders the claim indefinite because the claim includes elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim unascertainable. See MPEP § 2173.05(d).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 and 8-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Nelson '165. Nelson discloses a device for removing weeds (figures 1-3) comprising an elongated shaft (generally 12), a ground support 42 pivoted (as defined along axis 38 as seen in figure 1) to a first end of the shaft and at least two blades 22 including gripping ends forming an extension to the shaft. Also, Nelson discloses the shaft, ground support and blades being functionally connected together in a manner that allows turning the shaft and the ground support with respect to one another thus moving the blades towards one another gripping for a plant (as seen in figure 2, plain and phantom views).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3671

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6, 7 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nelson et al.'165 in view of Pakosh '465. Nelson discloses the claims device substantially as discussed above but fails to show the use of three or an "array" of blades used in a plant removing device. However, Pakosh discloses that it is well known to provide such an "array" of blades (as seen in figures 1 and 2) in concert with a plant removing device as well as actuate those blades as necessary to extract plants/weeds. It would have been obvious to one having ordinary skill in the art at the time of the invention to provide the device of Nelson with the teachings of Pakosh in order to provide a tool having greater gripping power and thus being more operationally effective.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert E Pezzuto whose telephone number is (703) 308-1012. The examiner can normally be reached on 7:00 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas B Will can be reached on (703) 308-3870. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
